Saturday, February 21, 1885. CLEVELAND'S POSITION ON SIL-VER COINAGE.

It is generally agreed that Cleveland is opposed to the further coinage of silver, and since his views on this Tueson, is the same as at Jacksonville. question have been ascertained, bimetalists have become very uneasy. 69 degrees. Public men and business men of both parties have come from the presence of the President-elect with the universal agreement that he is not in favor of silver coinage. While Mr. Warner, of Ohio, was in New York, recently, he called on Cleveland thinking to put in a good word for silver, but greatly to his surprise, the President-elect in- which garrisons the posts of southern dicated that he thought the coinsge of Arizona will soon exchange with one silver ought to be suspended. Hon. Thomas Weedin, Councilman from Pinal, in a letter to the Florence Enterprise, voices our sentiments ex- being guilty of the crime of incendiaractly in regard to the bills to establish an insane asylum at Phonix, a Territorial university and to remove the Territorial Prison to Tucson. He says:

Mr. Risley, Republican, showed his sense by opposing at "because he did not making humiliating appeals in behalf of officials."

A number of papers have been agi tating the question as to when the Legislative session will close. Secretary Van Arman yesterday received an official communication from Washington which set the matter effectually at rest. In it he is instructed to pay members for 60 days from the date of the temporary organization. As the House effected a temporary organization on Thursday, January 15, it will close on March 15th. The organization of the Conneil was not effected until January 21st, but as it cannot prolong the session longer than that of the House, it is safe to say that the gavels of Mr. President and Mr. Speaker will on the 15th day of March sound the adjournment sine die of the 18th Legislative Assembly. -Cochise Record.
